

# SERVICE PRODUCTS & PARTS

## CONDENSATE PAN

The **30-300** Condensate Pan was designed for applications where additional condensate removal capacity is needed. The 30-300 is ideal for refrigerators, vending machines and small commercial icemakers in applications where condensate drainage is not available.

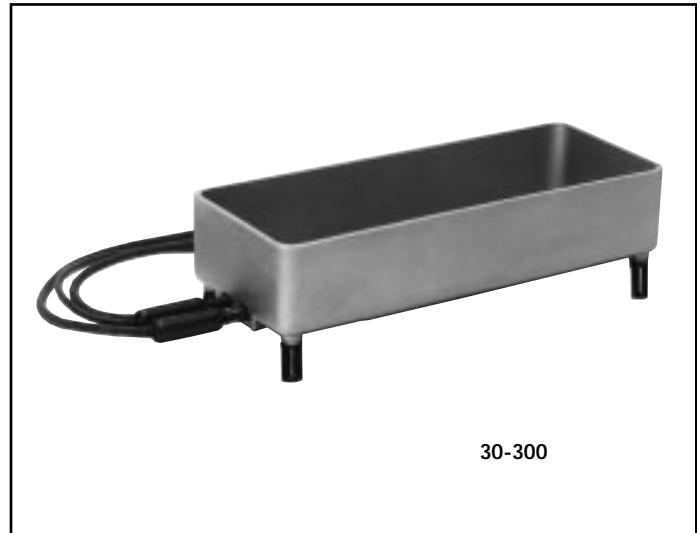

### SPECIFICATIONS

Watts	160
Volts	120
Evaporation rate	8 ounces*
Dimensions	10" x 4" x 2-7/8"
Material	cast aluminum
Water capacity	30 fluid ounces

Heater resistant legs

Replaces: Gemline CP300 Sealed Units 30-0S

**\*NOTE:** Voltage and humidity levels affect the evaporation capacity. Each application should be completely tested before leaving installation site.

## FITTINGS

Clip to hold **30-003** terminal cover in place on **3160** and **3161** Series (AP) pressure controls.

ORDER - **30-004**

### ADAPTOR FITTINGS

Adaptor tee allows installation of 3100 Series Pressure Controls with style #1 pressure ports to existing A/C system access valves while maintaining gauge access.

ORDER - **30-110**

Adaptor fitting 1/4" and 9/32" steps allows use of style #2, 3, 4, and 9 pressure ports with style #1, **3100** Series Pressure Control.

ORDER - **30-111**
