

SERVICE PRODUCTS & PARTS

UNI-COOL

Do away with wet rags and their questionable reliability! Do away with the messy one shot "squeeze tube" method. Make the better choice of Uni-Cool heat block compound.

Mold to an operative shape - protecting sensitive areas from heat - braze the connection and remove Uni-Cool to use again and again and again.

FEATURES

- Excellent heat block ability. Molds to desired shape
- Use with oxyacetylene, mapp gas, propane and specialty torches
- Non-toxic
- Will not contaminate braze or weld
- Easily removed for reuse without leaving a residue

90-222
