

Robertshaw **RANCO** COLD CONTROLS

ROBERTSHAW "NO-FUSS" DIRECT REPLACEMENT COLD CONTROLS 3030-100 & 200 SERIES

LARGEST LINE SELECTION AVAILABLE FROM ONE SOURCE

The NO-FUSS direct replacement cold controls are made by Robertshaw, one of the world's largest manufacturers of cold controls. They are designed as exact replacements for the original O.E.M. controls. With the same temperature specifications, dial shaft, capillary length, and mounting as the original control, there is no guesswork - just simple installation. The NO-FUSS direct replacements are the largest selection of direct replacement cold controls available today . . . from one source - Robertshaw.

FEATURES

- Individually boxed in a strong corrugated carton for extra protection from damage during handling or shipping.
- Complete label information - O.E.M. name and O.E.M. part numbers for handy reference.
- Detailed instructions for trouble-free installation.
- U.L. and C.S.A. listed.

3030-300 SERIES NO-FUSS REPLACEMENT CONTROLS

Robertshaw's 3030-300 Series Uni-Kits are designed for quick and accurate replacement of over 500 OEM cold controls with just 30 controls.

The 3030-300 Series covers controls used in both refrigeration and freezers and, with a minimum of parts, offers easy, simple and sure replacements.

RANCO K300 SERIES

SHORT KUTS™

SHORT KUTS™ are the new Ranco K controls that are the perfect alternative to direct and adaptable replacement controls. Each package contains a control, a couple of brackets, and a driver or two. You can snap it together in less than a minute. Each Short Kuts™ covers an array of OEM part numbers.
