

ROOM AIR CONDITIONER CONTROLS

3030-700 SERIES ROOM AIR CONDITIONER UNI-KITS®

The 3030-700 Series Uni-Kits are designed as universal replacements for virtually all air conditioner controls. The 3030-700 Series is available as universal Uni-Kits or as NO-FUSS direct replacement controls which are shown below. The Uni-Kits provide the greatest possible O.E.M. application replacement coverage with a minimal amount of stock.

The 3030-700 Series Uni-Kits are available in a wide selection of temperature ranges and capillary lengths to fit virtually every replacement application. Select from ambient bulb, straight, or air coil capillary configuration. Uni-Kits include all necessary adaptor mounting brackets, dial shaft adaptors, dial drivers, mounting screws and installation instructions.

FEATURES

See 3030-700 NO-FUSS features below.

3030-700 SERIES ROOM AIR CONDITIONER NO-FUSS DIRECT REPLACEMENTS

The 3030-700 Series NO-FUSS direct replacement cold controls for room air conditioners are made by Robertshaw, one of the world's largest manufacturers of cold controls. They are designed as exact replacements for the original O.E.M. controls. With the same temperature specifications, dial shaft, capillary length, and mounting as the original control, there is no guesswork - just simple installation.

FEATURES

- Individually boxed in a strong corrugated carton for extra protection from damage during handling or shipping.
- Complete label information - O.E.M. name and O.E.M. part numbers for handy reference.
- Detailed instructions for trouble-free installation.
- U.L. and C.S.A. listed.
